Observe nature and let us Learn From the 'Eagle'

“Eagle glides along with the strong breeze if there is a storm, because it enjoys the storm and challenges associated with it.”

Can we enjoy the difficulties and convert them into challenges?

“Eagle focuses on its prey from a range of five kilometers”

Can we focus on our goals like an Eagle?

Eagle tests before it trusts.”

Let us all follow a cautious path in achieving our objectives.

Let us all observe the Commitment of an Eagle and achieve greater heights in professional excellence.

CA's job is to regulate the system; advise the client; educate him of right and wrong and warn him of dire consequences, if he goes the wrong way. This is where the institution's role comes into play. It is a fact that once upon a time, the country produced very less number of chartered accountants.
